

# PubLink: Editorial Workflow for Digital Scholarly Publications in the Humanities

Elisa Bastianello  
 Digital Publications

Séminaire “Plateformes collaboratives et IIF” 24/01/2025

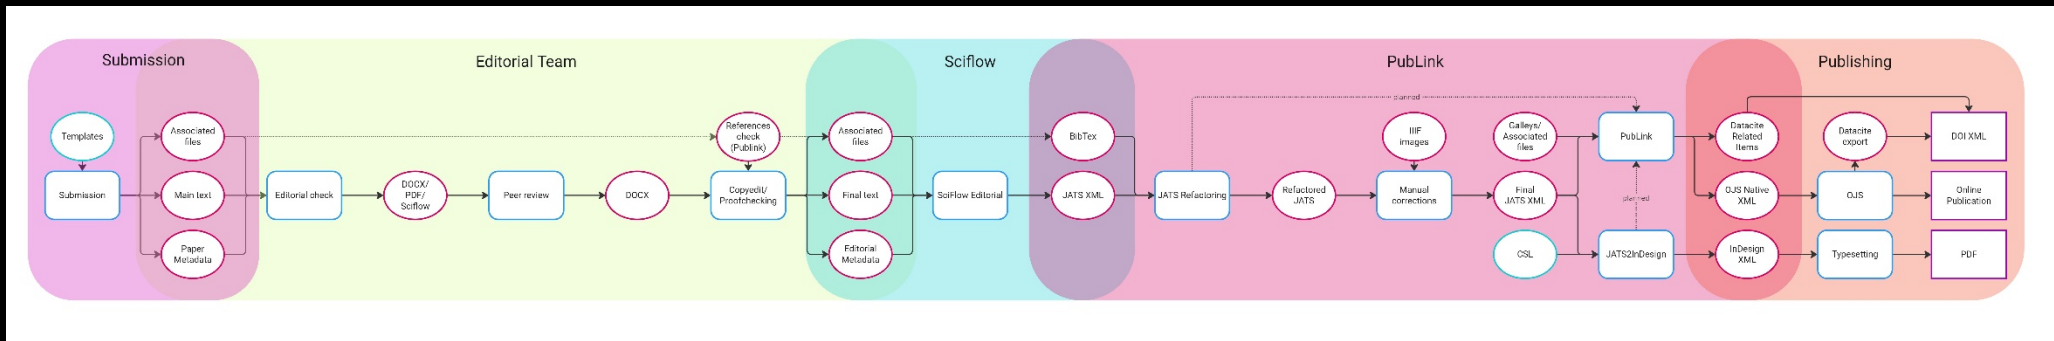

# Flux de travail pour l'édition numérique dans les sciences humaines

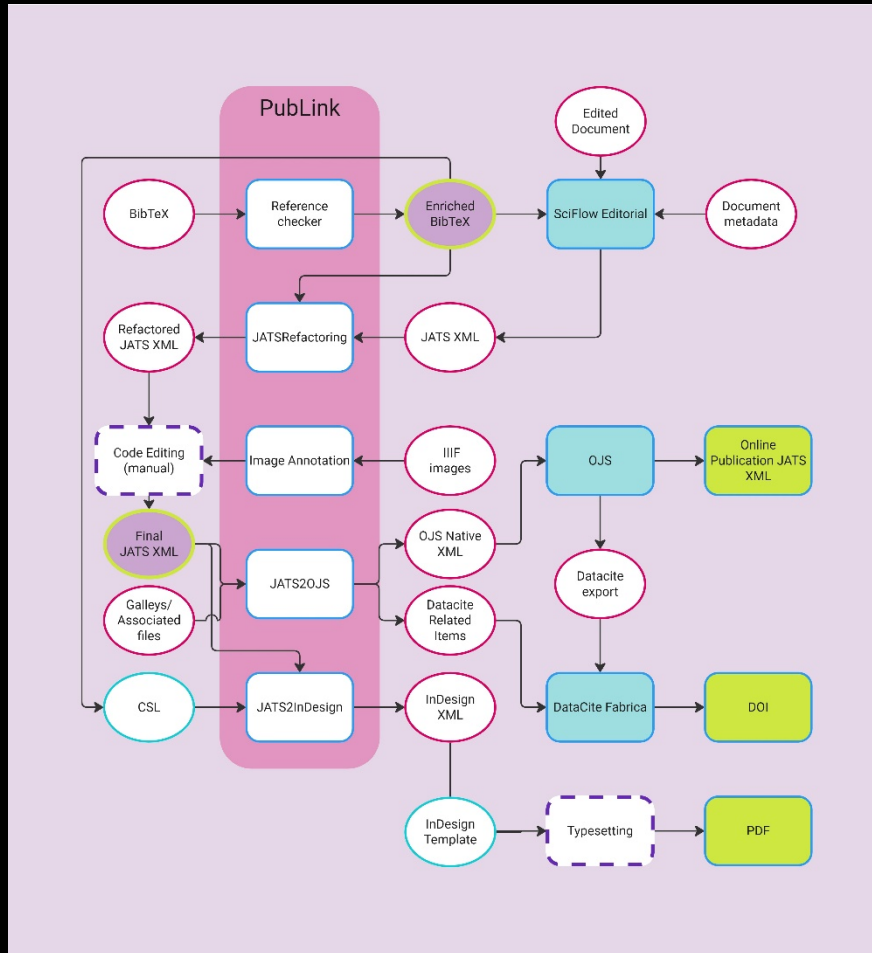

Voilà la première tentative de cartographie du flux de travail des publications numériques que nous étions en train de mettre en place.

# Peut-on le simplifier ?

Absolument ! Voici notre parcours pour rendre l'édition numérique durable même lorsque tout ce que vous recevez de vos auteurs (et de vos pairs évaluateurs) sont des courriels avec des fichiers docx en pièce jointe.

# PubLink, A Toolset for Enriching Scholarly Digital Publications

- Nous avons combiné des scripts et des outils existants dans une interface Web conviviale.
- PubLink rationalise le flux de travail depuis le papier édité jusqu'à JATS XML sur OJS et la mise en page PDF.

## Prochaines étapes

- Améliorer le téléchargement et l'annotation, et rendre les éléments annotés visibles.
- Permettre de rendre les annotations publiques afin qu'elles puissent être citées dans les articles.
- Trouver un moyen de lier le texte des articles aux annotations pour un archivage à long terme.
- Normaliser l'affichage des annotations IIF dans les articles en ligne.

Merci pour votre attention.  
Vous pouvez tester la démo en  
utilisant le code QR ou  
m'envoyer un message pour  
obtenir un accès anticipé à  
l'image Docker et installer  
votre version!
